1200142

Optime II Headband

Optime II has been developed for demanding noise-hazard environments and muffles even extremely low frequencies to a maximum degree.

The sealing rings are filled with a unique combination of liquid and foam. The result is an optimum seal with low contact pressure, which provides snug comfort even during long-time use. The sealing rings have ventilation channels and are covered with soft, patterned, hygienic foil.

Optime II is a suitable choice for environments with substantial industrial noise or construction machinery, airports and agricultural work.

SNR 31db.

Standard: EN352-1

1200144

1200144

Optime III Headband

Optime III is a super-muff, and has been developed for use in extremely noisy environments. The protection is based on a technology with a double casing that minimises resonance in the holder casing. This results in maximum high-frequency muffling, while at the same time its still easy to understand speech and signals. An acoustic connection between the inner volume and the volume between the casings in its turn provides maximum low-frequency muffling.

The sealing rings are broad and filled with soft plastic foam for the best fit and low contact pressure.

SNR 35db.

Standard: EN352-1

1200103

1200103

Premium Ear Defender

Premium foldable ear defender. Extremely comfortable with extra large foam pads. Padded adjustable headband allows easy fitting. Good attenuation performance.

Twin Filter Mask

Face piece produced from soft non-allergic TPE material. Provides excellent fit to aid with protection. Low profile design offers improved field of vision. Soft adjustable strap ensures a perfect fit to wide range of contours. Can be fitted with A1, ABEK, and P3 filter cartridges. Gas filters can be fitted with replaceable pre-filters and retainer adapters.

Use with Filters 1400181 and P3R Filters 1400187

As the CBRE business consolidates, a decision has been made to use these half masks. When you place your first order to include masks and filters MTS will issue the masks as free issue so that there is no loss to your contract regarding masks and filters. When ordering for the first time please provide MTS with the user / wearer's name for your Divisional QHSE Directors' records.

Standard: EN140

8011708

8011708

Dielectric Boots

Electrically insulating dielectric boot with an integral steel toe cap and vulcanized rubber sole for superior slip resistance. The dielectric boot provides protection of up to 20kV over the complete boot for over 8 hours, and 35kV over the sole for 3 minutes.

Boot Shaft:

Yellow dielectric compound shaft. 200 Joule Epoxy coated Steel toe cap to EN ISO 20345. Seamless construction. Kick off lug. Extra shin protection. Adjustable height. Ankle guard. Non-wicking knitted nylon lining. Comfort insole (removable and machine washable). REACH Compliant.

Boot Sole:

Blue vulcanized rubber sole for maximum grip - 30% better than a conventional safety boot sole. Slip resistance performance twice that required by EN 13287 SRA and SATRA TM144 standards. Cleated outsole for maximum grip. Two to three times the wear resistance of conventional soles. Fuel and oil resistant. Greater cut resistance than conventional soles. Resistance to hot contact 60 seconds 300°. Energy absorbing tunnel system conforms to EN 20345 E. Cold insulation to EN ISO 20345.

Care:

Machine washable at up to 40°. Shelf life of over 10 years.

Sizes:

9270005 - QHSE 5 C's NOTICEBOARD

Orientation: Landscape **Size:** 1350 x 925mm

Design printed onto 100 micron white gloss self-adhesive vinyl, laminated with dry wipe film, and applied to 5mm PVC white foam board and mounted onto 10mm black PVC foam.

Applied to board:

Monthly magnetic calendar square and 3 x blank magnetic parts of key.

Supplied with:

- 6 of each red, blue and green magnetic squares
- 6 x A4 transparent document holders (sticker for wording applied)
- Self tapping screws for use with document holders

Notes: Artwork not to size. Please allow 7 - 10 working days for production. Items may vary.

We can make a bespoke board to meet your specific needs.
Here's what we need from you...

1. Orientation - Portrait or Landscape
2. Size
3. Either send us a sketch or image of what you would like, or let us know if you would like an existing board changed to suit your needs.

To make life easier...

Your board will be laminated with dry wipe film.

We can pre-drill the holes for hooks and screws for you if there are additional items to be attached to the board, but please let us know upon ordering.

Just so you know...

It will take us 7 - 10 working days to produce your board from the time you place your order.

We will supply the additional items individually, these will not be fitted to the board, to avoid damage to your items during transit.

See below a range of items we provide with specific boards
