Size: 3-13

8011836

Ultra-slip resistant sole. Excellent traction with ultra-slip resistant soles. Approved by both SRA (tested with soap on ceramics) and SRB (tested with glycerol on steel), which automatically achieves the best standard for slip-resistant soles SRC.

Features & Benefits:

- The weight of the footwear is among the lowest on the market
- Elastic uppers of durable textile almost feel like an extra sock – they fit close and flexibly to the foot and deliver high comfort
- Removable insole with optimal arch support that can counteract the tendency to flat foot
- The front part of the shoe bends flexibly with the foot
- The composite toecap is completely free of metal. The composite material does not conduct heat or cold, so the composite toecap provides extra comfort in both hot and cold surroundings
- ETPU insert in the entire sole absorbs shock effectively, so the back and legs are protected with every step
- Shock-absorbing, soft and flexible two-component sole of PU/PU
- ESD Approved to DIN EN 61340-4-3: 2002 + DIN EN 61340-5-1: 2008
- Category: S1P SRC Standard: EN ISO 20345 2011

ESD Approved to DIN EN 61340-4-3: 2002 + DIN EN 61340-5-1: 2008. Footwear with an ESD label avoid electrostatic charging and are able to conduct away controlled static electricity from the body. This will avoid damages to, for example, sensitive electronic components.

Size: 6-13

8011838
